ULTRA HAMMER SERIES from Estwing

Made in the U.S.A., Ultra Hammers are light. These hammers drive nails faster. Estwing hammers are forged in one piece out of fine tool steel for long life and dependability.

Ultra Hammers are **stronger** because they are forged in one piece steel. No welds. No joints that can fail.

Plus, these hammers feature Estwing's world famous and patented Shock Reduction Grip. The most durable and reliable grip put on any striking tool.

Also, available in Estwing's traditional and attractive leather grip.

Ultra Hammers are designed with the professional in mind. An extra nail pulling notch is built into the head of our hammers for use in tight spots, along with a magnetic nail starter in the hammer head.

Available in both regular and long handles in 15 oz. and 19 oz. weights, with leather or Estwing's exclusive nylon-vinyl shock reduction grip in blue or black.

Your purchase of these tools helps keep jobs in America.
